

MURFIN OPENS FOR DEFENSE IN NEWBERRY TRIAL

First Evidence Introduced Late in the Afternoon

DEMOCRAT IS FIRST WITNESS

[By Associated Press.]
GRAND RAPIDS, Mich., Feb. 3.—Proceeding by an appeal to the jury by James W. Helme, candidate for United States senator in the 1918 democratic primary, the first evidence was introduced today in the Newberry election conspiracy trial.
Helme's appearance was unheralded. It followed a statement by James O. Murfin, who opened for the defense, that Helme had been "worked" by the Newberry campaign committee in making the evidence against him.
Murfin explained to the jury that this was done to prevent democratic votes being cast for Henry Ford in the republican primary.
"I was worked as Mr. Murfin told you," said Helme. "I am making this statement because I seem to occupy a position apart from the other defendants, but the record is a bit humiliating."
He said that he had confidence in William J. Mickel, the other democratic defendant in the trial, who persuaded him to run for senator because when Helme was state dairy commissioner he kept "peasants" as a deputy for several years despite efforts of other politicians to "get his job."
Helme said that Samuel O'Dell, another defendant and who was state treasurer in 1918, told him that if he "beat Ford in the democratic primary and Ford won the republican nomination, all the Republicans would turn to me in the general election."
Helme concluded with an explanation that his motive was the "elimination of the millionaires from the campaign."
"Spending money in a campaign may be legal, but I am an idealist and hold it to be a moral wrong," he said.
After some legal skirmishing the introduction of testimony started. Two witnesses were called today, J. G. Hayden, Washington correspondent of the Detroit News, and James P. Sweinhart, head of the Paper's New York Bureau. Sweinhart related that Frederick Cody, conversing in New York regarding the Newberry candidacy had said:
"It will be a great time for the boys in Michigan because they will spend a barrel of money."
Frank C. Dailey, assistant attorney general, immediately rang down the curtain for the day.
Hayden testified to conversations in December 1917 with both Cody and Truman H. Newberry, then a Lieutenant Commander in the Navy. He said on direct examination that Cody tried to hire him as campaign manager for Newberry. On cross-examination by Martin W. Littleton he agreed that the job was that of a "political secretary" with headquarters in Detroit and duties of examining political sentiment in Michigan.
Hayden swore that Cody came to him in Washington and offered him the position and later telephoned from New York and arranged a Sunday conference in that city with Mr. Newberry. He said he understood their offer was \$500 a month, but that he refused because he believed political jobs were disreputable, and to newspaper reporters after they returned to their own profession.
Hayden said Cody told him that the Newberrys were "immensely wealthy" but that he had advised both Cody and Newberry not to make a "barrel campaign." He said Newberry agreed with him and they mentioned the Mitchell mayoralty campaign in New York and the Herrick campaign in Ohio as examples of wasted expenditures.
Hayden also testified that he advised Newberry to get the united support of all Republican sections in Detroit as a necessary part to a successful campaign and told him that Oscar Marx, then Mayor, and Milton Oakman, headed the city and country organizations respectively. Oakman is a defendant and Marx is here as a witness.
On cross-examination Mr. Littleton brought out that Newberry had told Hayden he had been urged to run for the office by Governor Albert E. Steeper, Thomas Clark, the Governor's business partner; A. E. Peterson of Calumet, and Roger Andrews of Menominee. Hayden could not remember that Newberry told of a conference by these four at Port Huron, in the summer of 1917.

SHIPPING BOARD MAKES FIRST SALE

"Mercury" One of Thirty-Seven Former German Boats Sold to American Concern—Considering Bids on Others.
[By Associated Press.]
Washington, Feb. 3.—Coinciding with the explanation of Brigadier General Hines, chief of the army transport service, to the Senate commerce committee of the war department's attitude toward the sale of former German passenger liners, the shipping board today announced the sale of the "Mercury," one of the thirty former German ships for which the board recently received bids. The Mercury, however, is not one of the vessels against the sale of which the war department has protested.
The Mercury, a vessel of 10,350 deadweight tons, the board announced, was sold to Charles C. A. Fitzh of the American International Bureau of Supplies of New York.
Bids for the 29 other former German passenger ships are still being considered by the board and Chairman Payne said tonight that it was unlikely that any decision would be reached for a day or two.
The board also announced the sale of the Pequod, a 8,900 ton cargo vessel formerly German owned, to the Wymans S. S. Company for \$1,335,000.
General Hines explaining the position taken by the war department, said that the former German boats should be operated permanently under the American flag and that their purchasers should bind themselves to turn over the ships to the government in a national emergency.
Major General William B. Black, former chief of army engineers, and now engineer for the shipping board, who was another witness, sharply criticized port conditions at New York.
Shipping board vessels, General Black said, had paid recently as high as \$600 a day for berthing in New York, though pre-war rates were from \$60 to \$80. As a remedy General Black suggested that the shipping board be given authority to acquire and control as many piers as possible.
Port facilities at New York were greatly congested, he said, although the facilities at Boston and Philadelphia were not half utilized.
General Hines told the committee that 12 of the 19 liners taken over by the war department had been returned to the board and that the others would be released soon.
General Hines urged legislation to permit the transportation of commercial freight and passengers on army transports when space is available and American commercial vessels are not available. He added that a great deal of business would develop in the Pacific and on the Panama canal route if transports were allowed to handle it.

LEADERS LAYING PLANS FOR NEXT MOVE ON TREATY

Clearing Away Tangle Parliamentary Red Tape

BORAH ISSUES STATEMENT

[By Associated Press.]
WASHINGTON, Feb. 3.—Senate leaders, preparing to bring the peace treaty again to senate consideration next week, took up today the problem of clearing away the tangle of parliamentary red tape which the treaty carried down with it when it failed of ratification last November.
Not the least of their troubles was the clause which was invoked to choke off debate just before the ratification vote and which Vice President Marshall is expected to hold must come back into the senate along with the treaty.
The leaders want some sort of cloture but they do not want to be string-haled by so stringent a rule, under which many senators already have exhausted their full quota of time.
The method apparently most in favor for avoiding this difficulty is to recommit the treaty to the foreign relations committee, a move which parliamentary experts say would automatically rid it of its cloture restriction.
Some senators, however, are strongly adverse to opening the gates to debate without any form of cloture, and are bringing pressure to bear on the rules committee to act promptly on one of the proposals for modified cloture before it.

FARMERS JOINING THE ASSOCIATION
Seventy More Names Secured Yesterday Even The Roads Are Bad.
Muddy roads interfered only in a very small degree with the membership campaign of the farm bureau and the Illinois Agricultural association yesterday. The committees were working in the township surrounding Markham and last night were able to report seventy additional names.
Today will be spent in the vicinity of Chapin and another good record is expected. Yesterday as a matter of fact, nearly every man called upon signed a membership card. As indicated, the condition of some of the roads interfered to a certain extent with the canvass and in a number of farm homes the workers found members of the family ill.
With only two days gone of the campaign, to last for more than two weeks, the officers of the farm bureau and the campaign organization feel very much gratified with the result.
AMERICAN LEGION TO GIVE DANCE TONIGHT
Plans All Completed For Dance To Be Given At K. of C. Hall Tonight—All Ex-Service Men Invited to Attend.
The dance to be given tonight at K. of C. hall by the local post of the American Legion promises to be an event of more than usual pleasure. The committee in charge of arrangements has left nothing undone, and the dance will doubtless be one of the largest of the winter season. The hours will be from 8 to 1 o'clock, and the music will be furnished by seven members of the local post.
According to announcement made by Commander Rowe the event is for all ex-service men, without regard to whether or not they are members of the post. A cordial invitation is also extended to all members of out of town posts who happen to be in the city. All those who are fond of dancing will have much to attend to this "hop."

SEC. DANIELS IN FORMAL ANSWER TO ADMIRAL SIMS

Upholds His Policy of Making War Decorations

GOES OVER THE SITUATION

[By Associated Press.]
WASHINGTON, Feb. 3.—Secretary Daniels made formal answer to criticism by Rear Admiral William S. Sims and others of the policy following in awarding war decorations. Appearing before the senate sub-committee investigating the awards, Mr. Daniels re-affirmed the views which led him to alter some of the recommendations for decorations, supporting his contention with a long statement going into the medal situation in detail.
The naval secretary at several points in the two and a half hour reading his prepared statement, showed considerable feeling, particularly when he countered the statement of Admiral Sims that the American navy "did no fighting during the war." In this connection Mr. Daniels vigorously pounded on the table and told the committee that it was well that Admiral Sims had not made such an assertion to the men operating American vessels in the war zone for if he had "he would have had a revolt in his own command."
At another point, the secretary departed from his written statement to declare that Admiral Sims as a result of personal differences with Admiral Henry B. Wilson, former commander of American naval forces off the French coast, had omitted Wilson's name from the list of officers recommended for distinguished service medals.
The secretary's testimony took up point by point statements before the sub-committee by Admiral Sims and dwelled at considerable length on the two major disagreements voiced by the Admiral, Tumeley, the awarding of decorations to officers who lost their ships thru submarine attacks or by mines, and the relative importance of shore and sea duty.
The admiral, he asserted, probably advocated high awards for many officers who served on staff duty ashore and few awards for officers who went to sea because "most of Admiral Sims' duty in the navy has been on shore."
Turning to the second fundamental difference between his views and those of Admiral Sims, Sec. Daniels said that many other Admirals of the navy and the Knight board of medal awards had established a precedent that such officers of ships torpedoed or mined should be decorated wherever their conduct was meritorious and reflected credit on the service. He read accounts of naval operations during all of the wars of the United States has been engaged in to support his policy of decorating brave officers, even those who lost their ships.
Concluding his testimony with a denial of Sims' charge that "navy morale has been shot to pieces through the method followed in awarding honors," Secretary Daniels declared that there was nothing the matter with the morale of the navy except a shortage of enlisted men in many ratings and insufficient pay for the officers and men left. Making a plea for immediate legislation that would increase navy pay to a status "at least comparable with the pay given men holding positions of similar responsibility in civil life," the secretary said that if such actions were taken the country would "soon learn that there is nothing the matter with the navy."
WILL HAVE FAIR

FOREIGN EXCHANGE CONTINUES TO SLUMP

Decline Most Severe in the Long Sustained Reaction of International Credits—Situation Serious.
[By Associated Press.]
New York, Feb. 3.—Another sensational slump in foreign exchange today unsettled prices on the stock exchange and the various commodity markets especially those trading in foodstuffs and cotton. The decline was the most severe in the long-sustained reaction of international credits and was attended by many disquieting rumors.
Some dealers in exchange, probably as a measure of precaution, declined to accept bills on any European center, except subject to collection rates. This policy was not adopted by the larger dealer and banking institutions, however, where outright purchases continued the rule.
Today's reversal, which established new low records for London, Paris, Rome, Antwerp and many less important centers, also took in one or more of the British dominions.
The reverse side of the exchange situation was presented by a withdrawal of about \$17,000,000 gold from the sub-treasury for shipment to South America, which continues to be favored by trade conditions.
Bankers in close touch with conditions in London and Paris acknowledged that the exchange situation had taken on more ominous aspects but in no high quarter was any immediate readjustment regarded as probable.
There were many conferences during the day between financial interests and exporters. Shippers also were vitally concerned in the situation, which is believed to have caused many cancellations of out-bound tonnage.
At the lowest rate, issued after the close of the market, the British pound was quoted at \$3.33 against a parity of \$4.86 5/8 or a discount of almost 33 per cent.
French and Belgian francs and Italian bills, all quoted at the one price of 5.18 1/8 to the American dollar before the war, today fell to new low levels at 14.44, 14.50 and 17.52, respectively, to the dollar.
CLOTHIERS URGE LARGER PRODUCTION
[By Associated Press.]
Washington, Feb. 3.—Increased production, more efficient distribution and stabilization of prices are necessary to reduce the price of clothing, dealers in men's wear today informed Howard Figg, who is in charge of the department of justice campaign to reduce the cost of living.
Representatives of the clothing trade concluding a two day conference adopted resolutions pledging co-operation of the manufacturers, merchants, producers and employees in the clothing industry to the department of justice which was called upon to investigate charges of profiteering and if substantiated to institute prosecutions. A committee, composed of one member from each organization, was appointed to assist Mr. Figg in carrying out the recommendations of the conference.
After the conference, the National Association of Clothiers issued a statement in which it warned that the public should of increased wages being paid, by not expect any material reduction in the price of clothing because the industry.

GIRL TESTIFIES AT HEARING OF N. Y. SOCIALISTS

Says One of Defendants Spit On Flag in War Time

LABOR LEADER ALSO ON STAND

[By Associated Press.]
ALBANY, N. Y., Feb. 3.—A Brooklyn scenographer, Ellen P. Chivers, 18, today testified at the assembly Judiciary committee's trial of the five suspended Socialist assemblymen that she had seen one of them—Charles Solomon—spit upon the American flag in war time.
There was a burst of applause from the crowded chamber when she explained that she had volunteered her testimony in a letter to Speaker Thaddeus C. Sweet, "because I think it the duty of any American to take the stand against one who has committed treason against his country."
"In the summer of 1917, a detachment of soldiers came to Ninth street and Sixth avenue, Brooklyn," related the girl, "for the purpose of calling for volunteers and they asked Mr. Solomon (who was living at a street corner address) if they might borrow his platform for that purpose. Mr. Solomon replied:
"Lend you my platform? Can you borrow my platform? Huh, the gutter is good enough for you. I would not let you wipe your dirty feet on it."
Keeping her gaze fixed on Solomon, the girl testified that a few minutes later a band came a long and struck up the Star Spangled Banner.
"Mr. Solomon turned up his coat collar, put on his hat, pulled it over his ears, spat on the American flag and set down," she continued.
The girl's story tonight brought from Mr. Solomon a statement denying that he had made the remarks attributed to him, asserting that never in his life had he ever shown any disrespect to the American flag and declaring that it was inconceivable any member of the New York police force would stand idly while a person publicly insulted the American flag.
Asked by members of the Judiciary committee sitting as a court, why she didn't ask the policeman she said were present to arrest Solomon if she thought his acts reasonable, Miss Chivers replied:
"There were others who did, but the police refused to do it." Peter W. Collins, a former Boston labor leader, testified this morning that socialism was seeking to capture trade unionism to overturn society by force such as was used in Russia; that propaganda instigated by Lenin and Trotsky was aimed at destruction of the American republic by mass action and that during the war he had seen Socialists opposing increased production in ship yards and factories.
"FLUMONIA" HEADED DOWN STATE
New Cases Developing at the Rate of 4,000 a Day—Strict Isolation Urged by Drake.
SPRINGFIELD, Ill., Feb. 3.—New cases of influenza in Illinois are developing at rate of 4,000 a day, including developments in Chicago, Dr. C. St. Clair Drake, director of the Illinois department of public health, said today. He believes, however, that the epidemic will have run its course in two weeks.
"The northern Illinois counties have in the main passed the peak of the epidemic," said Dr. Drake. "Central Illinois communities are approaching the peak and Southern Illinois counties are beginning to feel the full force of the outbreaks. Within two weeks this epidemic should be a thing of the past in this state."
Strict isolation of all persons with "bad colds" or "grippe," is again urged by Dr. Drake as a means of checking the epidemic.

STRANGE FIGURES ON CRIME

The director of Chicago's crime commission recently said that prohibition and other laws of the kind cannot help much with crime in Chicago until there is an end of the commercialized kind. He claims that it is an organized business in the great city and records seem to justify the statement. The director also made the startling statement that there are more murders in Chicago than in all the

British Empire during the same period. Evidently in Chicago they need more rigid enforcement of the law, fewer acquittals and more rigorous punishment for those who are found guilty in jury trials.

THE LAW GIVES A REMEDY

Gov. Lowden, after conference with delegates representing Chicago teachers, declined to call a special session of the legislature to pass a law designed to give relief to Chicago teachers, in the matter of increased salaries. The governor took the sound position that the situation is no worse in Chicago than it is down state, and that as a matter of fact the Hicks law, placed on the statute books by the last general assembly, provides for all cities the means by which the revenues for school purposes can be increased.

It is up to the Chicago teachers now to get an election in accordance with the Hicks bill before the people. The governor in taking the position explained his interest in the teachers and expressed the belief that they were entitled to higher salaries.

THE POOR FARMER

Some reports that emanate from Washington given out seriously are really ludicrous to people who know something of the real facts. Take for instance the story of the alarmists that there is a concerted effort among farmers to curtail production of their farms because at the present time farming is such an unprofitable business, the ex-

penses of operation having increased so materially without any adequate increase in farm returns. To any resident of the corn belt familiar with farming conditions, or in fact to anyone who knows about farming anywhere, this sounds like a huge joke. In the first place, farming is a profitable business, and in the second place if it were not, the cutting off of production will not remedy the difficulty on the individual farms and there could not be enough of a concerted effort to cut production to the point where higher prices would inevitably result.

UNIVERSAL GOOD TURN WEEK

A feature of the tenth birthday celebration of the Boy Scout movement is a nation-wide campaign in which through some channel every man, woman and child in the United States is being urged to adopt for Scout Anniversary Week the Boy Scout habit of doing a good turn to someone each day.

Outstanding among accomplishments of the ten years' history of the Scout movement is its remarkable growth among churches of all denominations, it being the first program to receive universal support among all religious groups. Church organizations representing more than 35,000,000 people have formally adopted the Scouting program and are developing plans for its extensive use. The Scout program is rapidly increasing in use among public schools throughout America as a post-class activity.

Since its inception, the Boy Scouts of America has had as its motto "Be Prepared," and every Scout is trained day after day in a practical readiness for emergencies. The records of the National Court of Honor contain the stories of hundreds of Scouts who have risked their lives to save life and won. Pershing's army in France had 100,000 men whose training as Scouts in the mastery of the outdoors made them more valuable as fighters. Through ten years of practical service the Boy Scouts of America have been recognized as valuable allies of police and fire departments, the Red Cross and every other emergency meeting agency.

WHAT LOWDEN STANDS FOR.

In his campaign for the Republican nomination for President, Gov. Frank O. Lowden of Illinois has adopted a brief declaration of principles to express his views on public issues, which may be summarized in these words:

Economy, efficiency, protection, peace, promotion of agriculture and one flag.

He stands for the immediate return to an efficient, economical and business administration of public affairs.

Reduction of taxes. The abolition of the numerous agencies for war purposes which have been continued at an enormous expense in time of peace.

A protective tariff measured by the difference in cost of production at home and abroad.

A rigid insistence upon the principle of government by all the people and not by any class.

The ratification of the peace treaty with reservation substantially as proposed by the Foreign Relations Committee of the Senate.

Encouragement of agriculture and recognition of the principle that it is and must remain our most important industry.

The exclusion or deportation of aliens who place the red flag or any other flag above our own.

A stalwart, uncompromising

Americanism which puts this country's interest first. International friendships, not partnerships. A fearless enforcement of law and order. A speedy return to normal conditions. Justice to all.

Rippling Rhymes

Helping Along.
There are always chances to improve this vale of tears, as a delegate advances down the highway of the years. There are burdens you might carry, to relieve some weary lay, who would like to rest and tarry, for a season, on his way. There are luckless gents a plenty who are deep in divers holes, and some kind words, nine or twenty, well might stimulate their souls. Oh, some little chunks of kindness bring relief to those who sigh, and we walk in moral blindness if we let a chance get by. Just a pleasant morning greeting, as we strut along our way, to the citizen we're meeting, brightens up that fellow's day. Just a gossip with a kiddy as to school she toils along, in her tucker and her middy, fills her youthful heart with song. Oh, a mug that's always pleasant, with a five-by-fourteen smile, makes the future and the present seem to jaded gents worth while. We can make this world a daisy as we toddle to the tomb, if we're not too all-fired lazy to dispel some yards of gloom.

HAS SPENT LONG PERIOD

IN WORK WITH LUMBER

C. H. Settles of this city, who is head sawyer and manager of the Hill logging camp ten miles northeast of the city on George Wheeler's farm, says that timber work has been very difficult during the month of January. The cold weather has frozen the timber and made it very hard to work with. Mr. Settles is an experienced lumber man, having spent a great part of his life at that work. He is well known in Morgan, Cass, Sangamon and Menard counties. It will be remembered that he was for some time head sawyer of the Nashville Lumber Co., one of the largest lumber mills in the north.

Two years ago Mr. Settles retired from the saw mill work and came to this city to live. However, he was not content to be idle, so went to Dr. Hill at the state hospital for employment. He has for some time been employed at the state hospital and his work there has been of a satisfactory kind.

BERRY HEATON'S WILL
FILED TUESDAY

Leaves Property to Wife and Daughter—E. I. Whitlock's Will Placed on Record.

The will of the late Berry Heaton was filed Tuesday in the office of County Clerk G. L. Riggs, bearing date of June 5, 1919. The will was witnessed by Charles W. Boston and George T. Douglas. Mr. Heaton provided for the payment of debts. Further it is stipulated that his farm of 66 acres shall become the property of his wife, Mrs. Mabel Gordon Heaton, if she pays to his daughter, Frances Elizabeth Heaton, \$2,500. If this arrangement is not made, it is then wish of the testator that the farm shall be divided, three-fourths to his wife and one-fourth to his daughter.

It is provided that John R. Allen, grandfather of Frances Elizabeth Heaton, shall be her guardian until she reaches the age of eighteen.

Mr. Whitlock's Will.

Another will filed Tuesday was that of Ewen I. Whitlock, which was made Nov. 4, 1919, at a hospital in Chicago. This will was witnessed by M. T. Layman, Lucy D. Kolp and Elizabeth Layman of this city. Mr. Whitlock provided for the expense of a lot in the cemetery and its care, made a number of bequests to Misses Alice and Maude Smith, and also distributed some household furniture and jewelry.

It is directed that after these bequests have been cared for, that the property shall be divided equally among his brothers and sisters, his father and mother. Isaiah Whitlock, father of the testator, is made executor of the will.

CLEAR LAKE IS SUGGESTED

Editor Journal:

I would like to suggest that the new lake be called Clear Lake or Clear Water Lake, because it insures us clear water in our bath tubs, wash bowls, etc. To those of us who have lived in the time of mud baths, this name would always awaken refreshing, cleansing, thankful thoughts. Even the children of the present generation could understand the meaning and welcome such a name.

A Citizen.

Another Name.

Editor Journal:

In different copies of the Journal we read of different names suggested by different ones as we read them we think of the great body of water and how welcome it is to the city of Jacksonville, and how a thing of beauty it a joy forever, so we say as spring approaches what is more beautiful than the sun on a spring morning so let us call the new lake, Morning Sun.

D. S. Taylor.

Would Honor Soldiers.

Editor Journal:

I would respectfully suggest that our new lake be named for the first Morgan county boy to fall in France, either in action or by disease. I do not know his name, so my suggestion is altogether impartial. I believe this would meet the approval of every one, and you can easily find out the boy to be thus honored. Respectfully,
Mrs. Scott Carter.

WAVERLY PLANNING
FOR WATER SUPPLY

May Build Impounding Reservoir—Sewerage System Also Proposed.

Mayor Turnbull of Waverly was a business visitor in Jacksonville yesterday. People here will be interested in knowing that the council of Waverly has recently employed Pearce and Greeley of Chicago, the engineers who drew the plans for the local dam and reservoir, to make plans for a water supply in Waverly.

The plans will provide for an impounding reservoir, a distribution system and also a sewerage system is proposed. It is of course uncertain what action the Waverly people will take, but there is no denying that a well equipped water system for the town will provide not only for future growth but for sanitary and health conditions.

Often a suffering man or woman will ask a Chiropractor what the spine has to do with the health of the body. "Do you think that Spinal Adjustments can help me? I've been troubled with constant headaches and stomach sickness for years, but have been unable to find relief. Will Chiropractic help me?" These and other questions are regularly asked. Chiropractic offers real hope, because it gets closest to Nature's way in helping the sick to get well and stay well.

The human body is so constituted that it is unnatural for disease to creep in without cause. The nerve system is designed to give perfect health to all organs and keep them in repair. If through abnormal curvature, jolts, strains, falls or wrenches at some time in life, the moveable bones of the spine are displaced, even slightly, they press on these nerves and obstruct the flow of life-energy. Weakness and disease result in the organs that these injured nerves feed. In stomach trouble for instance, the nerves to the stomach are subject to pressure by certain bones of the spine. Thru scientific adjustments

CHIROPRACTIC
"THE BETTER WAY TO HEALTH"

relieves this pressure, normal conditions are restored and Nature builds up the weak and diseased stomach until it is Healthy. The same method applies to other ailments due to pressure on certain nerves. Try Chiropractic (KI-RO-PRAK-TIC) adjustments. Get well and stay well.

MID WINTER CONCERT GIVEN TUESDAY NIGHT

Was Given in State Street Church Before Large Audience—Participants Acquired Themselves With Great Credit.

Last evening the annual mid-winter concert of the Illinois College chorus and the Conservatory Orchestra took place in State Street church. Owing to the inclemency of the weather, the bad condition of roads and the prevalence of influenza, the audience was not as large as it should have been, especially considering the fact that the proceeds were to be devoted to the Illinois College Endowment Fund. However, a goodly number were present, and their high appreciation of every feature of the program was evident in the vigorous applause.

The Conservatory Orchestra, under Mr. Kritch's capable baton, opened the evening with a Serenade by Tschalkowski, a piece of several movements, composed in the Russian master's characteristically colorful manner. It was played with real enthusiasm by the Orchestra, each member of which, while following accurately the distinct beat of their leader, seemed to feel the real musical value of the composition. The ensemble was excellent—remarkable indeed in any amateur organization—and the tone quality very pleasing.

In the second number, the well known Valse Triste of Sibelius, the sombre quality of the piece, its tragedy and its languor, were well brought out, also in the middle section, the wild gaiety so frequently found in the great Finn's works. The parts for wood-wind and brass were particularly effective, lending richness and variety to the smooth solidity of the string section of the orchestra. Miss Bennett's reading of a description of the meaning of the Sibelius composition made it much more interesting to the hearers. It was clear and well delivered.

Mendelssohn's famous and ever-beautiful "Hymn of Praise"—its vocal section—formed the second half of the program, which seemed quite short. For it the accompaniment was played by Miss Ellen McCurley at the piano, assisted by members of the Orchestra, and their sympathy and support were always in evidence. Mr. Keep conducted the Hymn, excepting in the portions where he sang, when Mr. Kritch took the stick and proved himself a magnetic leader as well as a connoisseur in this branch of musical composition. The open chorus was sung with spirit, and splendid tone. Miss Edna Hackett's solo "Praise Thou the Lord" was delivered with stirring effect, her lovely voice carrying well over the assisting woman's chorus.

Mr. Keep's solo "Sing Ye Praise" revealed him as a master of this style of singing, the message of the words being conveyed with a clearness and genuine religious feeling, which every musical phrase received its true value. Between this solo and the exquisite duet for sopranos "I Waited for the Lord" the chorus "All Ye That Cried—" formed a pleasing interlude, being given with a quietness befitting its minor character.

The duet was sung by Misses Forrester and Armstrong, whose voices blend remarkably well, and whose delivery of the beautiful melodies brought well-deserved applause. Mr. Keep's second solo "The Sorrows of Death," was sung with authority and vigor, its undeniable difficulties seeming scarcely to exist for the singer. It is indeed remarkable that one who gives voice instruction as constantly as does Mr. Keep can maintain such freshness or vocal condition.

After the solo he resumed the baton for the choral, sung by the Chorus with precision and good variety of tone, then relinquished the conductor's place to Mr. Kritch once more for the duet between him and Miss Nora Young. "My Song Shall Be" This delightful number was well sung and well received by the audience. The final Chorus "Ye Nations," conducted by Mr. Keep, brought the program to a rousing close. It was surprising to note how this small body of singers overcame the contrapuntal difficulties of this elaborate chorus, and produced a volume astonishing as well as gratifying.

L. HENRY STRIKES REAL MULE BUYER

Henry, Dunn of Tilden Gets Local Stock Man Out of Bed—They Drive to Henry's Woodson Farm Where He Buys Seven Yearling Mules at \$800 Each.

J. L. Henry, the well known stock man and auctioneer, met a mule buyer Tuesday evening. Jess had been out auctioneering Tuesday and was tired when he got home. He hit the "hay" early and had not been asleep long until the ringing of the door bell awakened him.

When Mr. Henry opened the door he found two men on the porch. One of them introduced himself as Henry Dunn of Tilden.

Said Mr. Dunn: "I understand you are a mule man and you have

some fine yearling mules for sale." Mr. Henry replied that he had some mules and thereupon Mr. Dunn said he would like to see them.

"But," Mr. Henry remonstrated, "they are on my farm down near Woodson and you couldn't see them tonight."

Mr. Dunn insisted that he wanted to and Mr. Henry got ready and took him by automobile to his Woodson farm where he looked at seven yearling mare mules. After he had looked at them he told Mr. Henry he would give him \$300 apiece for them, the sale was soon made and Mr. Dunn's check for \$2,100 reposed in Mr. Henry's pocket.

Then Mr. Henry happened to remember that Bert Spainhower had a span of five yearling mare mules. They drove to Mr. Spainhower's home and routed him out of bed. He took a lantern and showed the span to Mr. Dunn and he ex-

changed them for a check for \$750.

Mr. Dunn got back to Jacksonville in time to take the Wabash flyer for Decatur tired but happy in the accomplishment of his purpose. He buys mules all over the country which he ships to his Tilden establishment and sells to Tennessee buyers.

FIRST DISAGREEMENT AMONG DELEGATES

Cook County and Down State Representatives Clash Over Chicago's Representation in Assembly

Springfield, Ill., Feb. 3.—The antagonism between Cook county delegates and down state representatives in the Illinois constitutional convention cropped out today at the session of the legislative committee which began consideration of proposals to limit Chicago's representation in the general assembly. Edward C. Curtis of Grant Park, chairman of the committee, said after the meeting he believed the committee would agree upon a proposal that would be acceptable to all the members.

Committees of the convention held their first meetings today. Most of the meetings were devoted to organization. The committee on Chicago and Cook county affairs fixed February 13 and 14 as tentative dates for public hearings to be held at Chicago in the city council chamber on proposals affecting the city.

The committee on judicial department took up consideration of the proposal of Delegate Amos Miller of Kenilworth establishing a supreme and circuit court with original and appellate jurisdiction of all judicial proceedings. The committee set next Tuesday, February 19, as a date for hearings on the proposal.

Sixteen new proposals were introduced at a brief session of the convention this morning.

AMERICAN LEGION POST HELD BOOSTER MEETING

Large Attendance and a Number of Visitors — National Commander States Legion's Attitude Towards Organized Labor.

Post No. 279, American Legion held a booster meeting in the Elk's club rooms Tuesday evening. Over two hundred members were present and many visitors.

Reports of various committees were received. The committee on by-laws made its report and the by-laws were adopted.

A number of inspiring talks were made by visitors. Stuart Russell told members of the local post how much more advanced the post was than most of them throughout the country.

John L. Sherwin of Post 2, Peoria; E. Hamilton, Bloomington Post; Jack Gardner of stage fame, and a charter member of Quentin Roosevelt Post No. 1, St. Louis; C. H. Budd, Montivido, Minn.; H. C. Locke, Nelson Jones and F. M. Davis of Springfield, also spoke. Mr. Gardner also entertained the members of the Legion with music and French stories.

The Legion orchestra was present and furnished some good numbers and Raymond Stewart and partner furnished some excellent numbers.

The local service star legion made application to the local post to secure a charter as an auxiliary of the American Legion which is the name which the legion has decided must be adopted.

The following directors were elected: F. J. Merrill, Hugh Green, John W. Groves, Ernest Stout and George Coe.

National commander D'Olier's bulletin relative to the American Legion attitude towards organized labor was read by the adjutant. It defines very clearly the purposes of the Legion and shows that there need be no conflict between its members and the members of organized labor on questions pertaining to Americanism. The bulletin is given in full:

"The attitude of the American Legion towards Organized Labor is exactly the same as its attitude toward all groups of American citizens who are interested in the maintenance of law and order and the protection of the institutions handed down to us by our forefathers.

"The preamble of our Constitution expresses very clearly the purposes of the American Legion and reads as follows:

"For God and Country, we associate ourselves together for the following purposes: To uphold and defend the Constitution of the United States; to maintain law and order; to foster and perpetuate a one-hundred per cent Americanism; to preserve the memories and incidents of our association in the Great War; to inculcate a sense of individual obligation to the community, state and nation; to combat the authority of both the classes and the masses; to make right the master of might; to promote peace and good will on earth; to safeguard and transmit to posterity the principles of justice, freedom and democracy; to consecrate and sanctify our comradeship by our devotion to mutual helpfulness.

"The purpose of the American Legion is two-fold—service to our comrades and service to our country.

"Under the head of 'Service to Our Comrades' we will exert all of our influence and all of our strength to the end that the ex-service man, especially the disabled man and his dependents and dependents of those who paid the supreme sacrifice, shall receive that just and fair treatment which they have reason to expect from a patriotic and liberal country.

"In serving our country, we shall endeavor to keep alive that spirit of service which induced us all to respond to our country's call in the time of her need even to the extent of being willing to pay the supreme sacrifice. And this we propose doing by assisting in the maintenance of a hundred per cent Americanism based on fair play and a square deal to all.

"The members of Organized Labor are patriotic citizens and the members of the American Legion are patriotic citizens who have proven their patriotism and their loyalty. Consequently, on the purposes of the American Legion both they and we are in accord. Many of our most loyal members are members of Organized Labor, and it is our hope that we may be able to convince every ex-service man who is a member of Organized Labor that our purposes are the same as loyal citizens and that every ex-service man in Organized Labor will join the American Legion. All ex-service men who are members of Organized Labor have proven their loyalty and their patriotism to the country and now appreciate their responsibilities as citizens, and we therefore hope it will not be long before they all are active members of the American Legion."

FRANKLIN D'OLIER, National Commander The American Legion.

Following the meeting refreshments were served and some time spent socially.

AWARDED LARGE SUM AS DAMAGES

John Goodwin of Alton was awarded \$25,000 damages from the Union Electric Light and Power Company yesterday in the United States District Court for injuries suffered from a live wire while trimming trees in the employ of the Kinloch Telephone Company January 17, 1919.

Goodwin charged that his right arm and leg were so badly burned they had to be amputated. He asked for \$150,000 damages. Sidney T. Able was his attorney.

TRACY.

Entered into rest at her home 304 North Sate street, Jerseyville, Ill., Friday, Jan. 30, 1920, at 9:40 a. m. Mrs. Mary T. Tracy, (nee Connolly), wife of William Connolly, aged 58 years, 11 months and 9 days.

She is survived by her husband, William Tracy, three sons, Francis, Thomas and Lee, three daughters, Mae, Helen and Regina; two sisters, Mrs. James Begnel and Mrs. Coy Palmer, of Murrayville; four brothers, Michael M. Connolly and James V. Connolly, of Murrayville; Peter W. Connolly, of Jerseyville, and Rev. Thomas M. Connolly, of Tucson, Arizona. One sister, Mrs. J. P. Ring, of Manchester, preceded her in death about four years ago.

Mrs. Tracy was a daughter of Mr. and Mrs. Martin Connolly, deceased, of Murrayville, and was married on Feb. 13, 1889. Most of her life was spent in Morgan county, near Franklin, having moved to Jerseyville in 1911.

Funeral services were held from St. Xavier's church, Jerseyville, Monday, Feb. 2, at 10:00 a. m. Solemn Requiem high mass was celebrated, Rev. J. J. Clancy, celebrant. Rev. John Gramke, deacon. Rev. Francis Shields, sub-deacon. Interment was made at St. Francis cemetery, Jerseyville. The pall bearers were nephews of the deceased, Clarence and Edmund Connolly, of Jerseyville; Clarence and Thomas Ring, of Manchester; Eugene and Thomas Begnel, of Murrayville. The funeral was attended by her many relatives, including Mr. and Mrs. P. English, of Little Rock, Ark., also many friends and former schoolmates of Morgan county.

a lot of folks are hunting for a name to call our lake, and I care not what they call it just so it ain't a fake; but no matter what they call it no one should be to blame, for they say a rose would smell as sweet by any other name; that there is nothing to a name, has often been surmized, and i admit that such is true — UNLESS IT'S ADVERTISED.

Child Birth

(BULLETIN NO. 9)

Herewith is a picture of James Le Roy Cunningham, taken at eight months of age — actual weight twenty-five pounds.

This boy is representative of the kids delivered in the Obstetrical Department of the New Home Sanitarium. He was born the New Way—Natural Way.

His mother was relieved of the pains — which make child birth a dreaded burden — when it is in reality the most sublime act of human endeavor.

This mother was able to leave the bed within six to twelve hours—able to be up and around the next day.

For the past five years at the Sanitarium this method has been used and by it, a great number of women have been delivered and not one has ever experienced the least unpleasant after effects. Yet sixty-two per cent of them were lacerated (torn)

more or less, forty-four per cent were normal, two per cent high forceps, eighteen per cent low forceps. These last two conditions due to primipara (first birth). Yet by immediate surgical repairs—these mothers made complete and rapid recoveries. I should not say recoveries because they were not sick. You say "That is awful to get them up so soon"—Yes, to anyone who does not know—or has lost faith in nature it seems awful. Remember only habit and custom control the man who never thinks.

Obstetrics is one of the most ancient professions. When Cain was born there was no physician to make Eve lie in bed and possibly contract infection, get weak and, thru inactivity, cause the cells and organs to become clogged with body waste, etc. The Bible and Greek writers tell of the Obstetric Chair—and it is used by many races of the far east today. We—yes, I mean "we" who are slaves to habit and custom—would resolve never to have another child under such conditions. What would you say had you lived during the age when the mothers of Sparta—to test the worthiness of their babies to live—would throw them into the river Styx and if the child sank the mother would thank the gods for not allowing such unworthy off-spring to live—but if it survived she thanked them for such a worthy child. It is needless to say that the Greek population did not grow very rapidly, yet to mention this practice to any Greek patriot will call forth the story of how 300 selected Greek soldiers defied and held back Xerxes and his 1,000,000 Persian soldiers for three days at Thermopyli. Then, too, only a few years ago, we could see the old granny sitting in the corner smoking her pipe, red rag

around the head, the expectant mother raging with pain, pulling the ropes, etc., waiting for Nature to take her course. No antiseptics, no repairs of lacerations, no resetting of womb, no care of the baby's eyes, and yet you who throw up your hands in holy horror, during those times accepted that kind of service as all right. (Habit and custom).

Thanks to evolutionary development of our present day civilization—custom and habit are being side tracked for progress and efficiency. The whole medical profession, just a few years ago, was startled and amazed at the advancement made in mid-wifery by V. Steinbushel in 1902 and Kronig and his assistants in 1907 in the development of the "Twilight Sleep" method of delivery.

Our modification of the Twilight Sleep, as practiced at The New Home Sanitarium, deserves your most careful consideration. Seventy-five per cent of the pains, aches and diseases of the mothers past thirty are due to errors, and ignorance practiced during child birth and the lying in period.

No mother—no matter how convenient and safe your home may be—treats herself or child with safety and justice who fails to go to a hospital for confinement. There is no exception. We gladly give to the profession or expectant mothers any information on this subject that we can. It will pay you to inspect our Obstetrical Department.

Kornfalpa Balanced Rations

The man who knows doesn't feed straight grains to his livestock any more. He buys a balanced ration. You must have variety in your feed, but the right variety. You can't be expected to know what makes the best variety for different animals. You haven't time to study and make big feeding tests. THE KORNFALFA FEED MILLING COMPANY does know what's the best variety for different animals. It is their business to know. They have proven to us that they have this knowledge and that this knowledge is in every sack of KORNFALFA balanced rations you buy.

What you want and need for success in feeding is honesty and quality plus knowledge inside the bag, and you get it in these KORNFALFA FEEDS. There is a KORNFALFA BALANCED RATION for every animal on your farm. You will be amazed at the results you get.

What Do We Mean by Balanced Rations?

Simply that the feed fits the needs of your animal. Just enough sustaining food—just enough grow stuff—just enough energy and heat food—JUST ENOUGH. If there is too much of any one there's a waste of that—if not enough there's a waste of all the others. There's a right way for everything. If you adopt the right way you make a success. There's no excuse for your not making a success of feeding, if you read this. Begin feeding KORNFALFA BALANCED RATIONS right now.

What Do These Balanced Rations Cost?

Not nearly as much, when you figure what they do for you, as the things you have been feeding. A little more in some cases when figured by the hundred pounds. But that's not a fair way to figure. Ground corn cobs cost less than corn chops. Are corn cobs better for you on that account? It's results that count. KORNFALFA BALANCED RATIONS are Feeds That Show Results.

THE SOLUTION OF THE INDUSTRIAL PROBLEM

Rev. M. L. Pontius Says That a Spirit of Cooperation and Friendliness Between Capital and Labor Will Bring About Industrial Peace—Delivered Last Address at Court House Tuesday Evening.

A spirit of cooperation and friendliness between capital and labor is the solution of the industrial problem advanced by Rev. M. L. Pontius in his address at the court house Tuesday evening.

Despite inclement weather conditions a large audience gathered to hear the third address of Mr. Pontius on the problem of capital and labor. The speaker evidently has given much thought to the question and was heard with great interest throughout. A brief outline of his address is given.

"In the last address we reached the conclusion that a capitalist is a man who has more wealth than he needs to provide for himself and those dependent upon him the necessities, conveniences and amusements of life. We decided that all men are laborers unless

they belong to one of two classes, idlers or the leisure class. We discovered that out of Roman slavery there came the feudal system and out of the feudal system there came in the beginning years of the 19th century the new industrialism and with this our modern wage system. As the new industrialism came capital organized. Later labor was forced to organize. In the age-long conflict between organized capital and organized labor there has come the greatest social, industrial, economic problem of the centuries.

"When we think of the social and industrial conditions prevailing in our large centers of population in the world we are forced to ask, 'Is there a solution to this problem?' When we see organized capital arrayed against organized labor and organized labor attacking organized capital; when we hear of strikes and lockouts, boycotts, and blacklists, we are forced to ask, 'Is there a solution to this problem?' When we see on one hand the mountains of wealth and mountain ranges of material resources and on the other hand hundreds of thousands in our country on the border line of starvation, we ask, 'Is there a solution to this problem?' But when a problem is clearly stated somehow, somewhere there must be a solution.

Many Solutions Offered. "The communist tells us he has a solution to this social, industrial economic problem. Communism would eliminate all private property. No man would own a single thing. Communistic experiments have been made many times. Perhaps one of the most notable ex-

periments is the one tried in the days of early Christianity. The early Christians said, 'We shall have all things in common.' So each man sold his possessions and brought the money to the common treasury, or he brought his possessions to the common storehouse. Then each man drew out of the common storehouse or treasury according to his necessity. No man said that ought that he possessed was his own. I suspect they would have agreed to adopt the motto, 'From every man according to his ability, to every man according to his need.' This experiment lasted for a few months only. All such experiments have been short lived. Communism can exist only when we have an ideal society and a perfect humanity. Communism must be ruled out as a solution to our problem.

"The socialist tells us that the solution to this problem is socialism. Socialism differs from communism. Communism would eliminate private property. Socialism would permit the individual to retain private property but insist that all public utilities and all means of wealth production should be owned, controlled and operated by the people, the community, the state or the federal government. Socialism is today impracticable. Noyes tells us of 45 different social experiments in the U. S. all of them having passed away and the average life of the socialistic experiment was two years. Like communism, socialism can succeed only where you have an ideal society and a perfect humanity.

"The anarchist tells us that the solution to the problem is anarchy. Anarchy would eliminate the government and all law. It would destroy all restrictions and restraints. Man would be free and could do a thing whenever impulse prompted. Unless a man has a diseased mind he will never offer anarchy as a solution to this problem.

"Another man tells us that a solution to our social, industrial, economic problem may be found in profit sharing. Pay the laborer a wage and then at the end of the year after all expenses, including wages and salaries have been paid, give the wage earner a just proportion of the profits. This might work well at certain times and for certain periods.

"If it is right for the laborer to share in the net profits of the business in a time of prosperity, surely it is right for him to share the loss in a time of panic or during hard times. This the laborer would not want to do, and perhaps could not if he would. At best this would be nothing but a temporary solution to our problem.

"Here is a man who says he has a solution to our problem. He would grant the requests of organized labor for increased wages in every instance. Organized labor would be solved, in most instances organized capital could afford to do this and the problem would be solved. But would it be solved? If wages are governed by the demands of organized labor without any regard to economic law we shall soon have such a panic will be inevitable.

that gives to each person the privilege of worshipping God according to the dictates of his own conscience. Political democracy that grants to each citizen equal rights and privileges. That considers each citizen equal to every other citizen so far as inalienable rights are concerned. Industrial democracy in which there are few if any capitalists who do not have to work, and in which the laborer receives a just wage for his labor.

The approach to this industrial democracy is the best solution to our problem. Under industrial democracy in some instances it might mean profit sharing; in other instances it might mean that every capitalist would be a laborer and every laborer would be a capitalist. In every instance it would mean justice to organized capital and organized labor. The entire process is evolutionary. But out of a safe and sane industrial democracy we may expect the solution to this problem.

Both Have Made Mistakes "Organized capital has made mistakes. When organized capital does not grant to the laborer a wage proportioned to the service rendered a serious blunder has been made. When organized capital produces multimillionaires in a few years, the laborer is bound to be under the iron heel of industrial autocracy.

Organized labor has made mistakes. Organized labor makes a mistake whenever it asks for a wage without any regard to economic law. Violence is always a boomerang in the hands of organized labor. It is a serious mistake for organized labor in any way to prevent its members from full fellowship in social and civic organizations, including the American Legion.

The Spirit of Cooperation "Organized capital and organized labor are too far apart. If they will get closer together and exchange views in a friendly fashion many differences will become agreements. If a spirit of cooperation and friendliness should prevail between capital and labor there is no difficulty that might not be adjusted by conference and arbitration.

"This of course would depend upon the elimination of the radicals in such a conference whether they represented labor or capital. Let us attempt to change organization and selfishness into cooperation and fraternity and see what the result will be.

"If I knew you and you knew me, if each of us could only see And with an inner light divine The meaning of your heart and mine, I'm sure that we would differ less And clasp our hands in friendliness. Our thoughts would pleasantly agree, If I knew you and you knew me."

W. W. WRIGHT RETURNS TO FORMER HOME

Attorney Who Went to Colorado Several Months Ago is Again Resident of City.

W. W. Wright and family have returned to Jacksonville from Greeley, Col., and will again become residents, a fact which will be very pleasing to the many friends of the family here. Mr. Wright will have his law office in the same room on the fourth floor of the Ayers National bank building that he occupied before going to the west for temporary residence.

The change was made from Jacksonville to Colorado on the belief that it was necessary from a health standpoint. However, Mr. Wright was greatly relieved

to find after some months' residence in the west, and consultation with a number of physicians, that there was no good reason why he could not live in Illinois.

PYTHIANS HAD FINE ROLL CALL MEET

Large Number of Members of Jacksonville Lodge No. 152 Present — Quartet From Pythian Home Heard With Great Pleasure.

The annual roll call of Jacksonville Lodge No. 152, Knights of Pythias, was held last night at Castle Hall. In many respects it was one of the most interesting events in the history of that now old time lodge. Members were present from far and near, and undying interest in the principles of Pythianism was at all times apparent.

Particular interest attached to the presence of Mr. and Mrs. Clifford Hatch, who have charge of the Pythian orphans' home at Decatur. With them came a group of girls from the home, and as they were heard in song after song and one of them gave an excellent reading the Pythians found new pleasure in remembering the noble work that is being done at this institution.

Five Dinner Served.
Dinner was served at 6 o'clock and under the direction of James H. Hall and a competent committee, the arrangements were of a most hospitable and generous kind.

John J. Reeve said grace and then the evening began. Following the dinner came the formal program and roll call when T. M. Tomlinson, member of the committee on arrangements, introduced Mayor E. E. Crabtree, member of the lodge, to preside.

There was an interesting departure from the regular program when several of the charter members were asked to occupy seats at the front. Among the number were M. F. Dunlap, George Owen P. Thompson, M. H. Havenhill and George E. Matthews. Then came the roll call and the responses were all of a kind to indicate that Pythianism leaves a lasting impression upon the lives of all those who associate in its work. There was special interest in the address of Rev. M. L. Pontius.

At various intervals throughout the evening the girls from the home sang and certainly they added greatly to the pleasure of the occasion. They all gave evidence of fine individual spirit and of the pleasant home atmosphere that must surround them. Mrs. Hatch was the accompanist.

The Orphans Home.
Supt. Hatch made a fine address, in which he told many interesting facts about the work of the home and talked of other matters of special interest to all members of the order. There are now 56 boys and girls being cared for at this home, and certainly the money which the lodges contribute toward the fund is being wisely expended.

Among others called upon after the regular roll call were John J. Reeve and J. F. Claus, both of whom are members of the board of trustees of the Pythian home. Then James Barnes, Worthington Adams and Edward Tomlinson spoke as the youngest Pythians present and all of them talked in form true to their Pythian ancestry. Certainly the committee of arrangements planned well for this event.

American Legion dance, K. C. Hall next Wednesday evening, 8 to 1 o'clock. Big union orchestra.

FUNERAL NOTICE.
The funeral service for Mrs. Nannie H. Matthews will be held this morning at 10:30 o'clock, at the home of Mr. and Mrs. Barr Brown, 857 West State street. A previous notice indicated that the funeral would be held this afternoon.

NOTICE

The county executive meeting of the W. C. T. U. will be held in Jacksonville at the library at 9:30 o'clock Friday, February 6. All county officers and county superintendents of departments are urged to be present, as there is business of importance to be discussed.

MRS. LOTTIE BERGER, County President

HARRY McCracken IS GIVEN PROMOTION

Harry C. McCracken, formerly a resident of this city and who has lately been manager for Swift & Co., at Clinton, Iowa, has recently been made manager of the produce department for the company at Alma, Mich. This change comes in the nature of a promotion and the young man's many friends here will be glad to know of his good fortune. Mrs. McCracken who has been in the city for some time at the home of her mother, Mrs. C. Waggoner, left yesterday for Chicago. There she will join her husband and proceed to Michigan.

HEAVY GIRDER FOR GALLAGHER BLOCK

John Wolke, who has the contract for remodeling the rooms in the Gallagher block which are to be occupied by the J. C. Penny Co., has a big task in prospect. A steel girder weighing 82,000 pounds was yesterday unloaded on West State street and is now in position in front of the building, ready to be raised today. It will carry the weight of the two stories above and looks big enough to stand the pressure from a ten story building.

KNIGHTS OF COLUMBUS CLASH WITH FRANKLIN

Local Tossers Will Meet Fast Franklin Team Tonight—Game Will Be Played in Liberty Hall.

The Knights of Columbus will meet the fast independent team of Franklin in Liberty hall this evening.

Franklin has one of the strongest independent teams in this part of the state and will give the local tossers a hard fight.

The Knights of Columbus team has shown improved form in recent games and the players believe they will be able to defeat the victors, but not without a hot battle.

Franklin probably will bring a bunch of rooters and the game promises plenty of thrills. Coach Harmon of Illinois college will officiate. The teams will present the following line-ups:

Knights of Columbus—Forwards, Froelich, Rook, Flynn, Topping; center, Rexroat, Hamilton; guards, Cain, Clancy, Foley, Costello.

Franklin Independents—Forwards—W. Teaney, Seymour; center, Jasper; guard, Beerup, H. Teaney, Burnett.

RED MEN CONFERRED ADOPTION DEGREE

Delaware Tribe Initiates Eleven Candidates—Large Number of Members Witnessed Work.

Eleven candidates were given the adoption degree by Delaware Tribe No. 78 improved Order of Red Men at the regular meeting, Tuesday evening.

The work was witnessed by a large number of members and was conferred in an impressive manner by the degree team which is considered one of the best in the state.

The warrior's degree will be conferred at the next meeting, Tuesday, February 10. At the following meeting the chief's degree will be conferred and it is hoped to have Great Sacham J. A. Kappa here. In case he cannot come at that time he has promised to visit Delaware Tribe some time before April.

Delaware Tribe is showing a gratifying growth at the present time. The members are all enthusiastic and applications for membership are being received at every meeting.

ROADS NEAR SINCLAIR IN BAD CONDITION

Recent Thaw Makes Roads Almost Impassable — George Nauty Buys Hodgson Property — Other News of Interest.

Sinclair, Feb. 3.—The recent thaw is putting the roads hereabout in very bad condition. The lengthening of the rural route out of Sinclair makes the trip an arduous one, but the carrier, John Stewart, says he'll make the trip if it takes until midnight.

W. W. Young was in this vicinity Monday buying horses. He traded for four from Arthur Swain, who is disposing of his horses and farm implements, preparatory to retiring from farm activities.

Herbert L. Sinclair is preparing to remove to a farm he has purchased south of Harts school in Scott county.

Numbers among the sick are Mrs. Aaron T. Hodgson, Mrs. Jos. Means, W. H. Smith, F. C. Trotter and family, W. H. Foster.

William Bocking of Centerville, Miss., is visiting his daughter, Mrs. M. C. Means. He reports farmers busy plowing and planting crops and making gardens in his southern home.

F. C. Hymes is to hold a sale Feb. 17. He will move to a farm he has purchased west of Markham. Mr. Hymes is a good citizen and that neighborhood will have no occasion to regret his coming.

John W. Moore is leaving the culinary department of W. L. Hopper and will devote himself to farming and raising chickens, near Hazel Dell school.

Sam Miles has moved to a farm on the Illinois river bottom. Newton Wilson leaves the Hopper farm for one near Joy Prairie station.

American Legion dance, K. C. Hall next Wednesday evening, 8 to 1 o'clock. Big union orchestra.

LUKEMAN'S SALE WELL PATRONIZED

There was a time in Jacksonville when clothing clearance sales were quite common, but not so now. Messrs. Lukeman Bros., announced a clearance of suits, coats, etc., to start Tuesday morning and despite bad roads and inclement weather crowds of people flocked to the store, each person seemingly bent on stocking up against further probable increases in price. A number of men bought two suits each and one, a traveling man out of Chicago, bought three suits. The sale will be continued for several days and no doubt will be largely patronized.

PUBLIC SALE.

Friday, Feb. 6, at 10:30 a. m., Benjamin D. Cade will sell at the Cade homestead, two miles north of Murrayville, thirteen horses including brood mares, well broke work animals, saddle and harness, five extra good cows, gentle and good milkers, nine brood sows, over 100 acres of blue grass and large lot farm implements.

DISTRICT NURSES HELD MEETING HERE

Annual Election of Officers Held — Dr. Black Delivered Lecture — Reception at Nurses' Home.

The annual meeting of the 13th district of the Graduate Nurses' association of the State of Illinois was held in the chapel at Passavant hospital Tuesday. There were representatives from Springfield, Decatur, Jerseyville and other cities present, in addition to the twenty-eight from Jacksonville.

There was an election of officers and some other business matters were given attention. Afterward those in the company had the pleasure of listening to an address on "Hospitals and Nurses in Greece," by Dr. Carl E. Black. Stereopticon slides were shown with the address, which was of a most informing kind. Miss Gowdy, superintendent of nurses in the public health department of the State of Illinois, made an interesting explanation of the plan for work of public health nurses in all the counties of Illinois. This work has been greatly extended during the past year and the efficiency of the service is being steadily increased.

Following the general session, the nurses were entertained at the nurses' home by the officers of Passavant hospital. Most generous arrangements had been made for this social feature of the day, and it was in every way most pleasurable.

The officers elected are as follows:

President — Mabel Parrott, Springfield.

First Vice President — Lucy Mount, Jacksonville.

Second Vice President — Clytie Andrews, Decatur.

Third Vice President — Emma Leaser, Springfield.

Fourth Vice President — Mary Wallace, Springfield.

Recording Secretary — Maud Ryman, Jacksonville.

Corresponding Secretary — Katherine Mathews, Springfield.

Treasurer — Sophia Strandberg, Jacksonville.

Among non-resident nurses present were the following:

Springfield — Misses Heitman, Dalby, Straub, Schull, Parrott and Gowdy.

Concord — Mrs. Lucy D. Brainer.

Jerseyville — Edna Sorrells.

Carterville lump and nut, hard coal, all sizes. WALTON & CO.

FRANKLIN INDEES DEFEAT WINCHESTER

Win From Scott County Team at Winchester by Score of 34 to 14—Team Plays Here Tonight.

The Franklin Independents won a fast game from the Winchester Independents team at Winchester Tuesday evening by a score of 34 to 14.

The Franklin team had the class and the result of the game was never in doubt after the first few minutes of play.

W. Teaney and Seymour made most of Franklin's points, the former making as many as the entire Winchester team. Sublett playing his first game at guard for Franklin put up a strong game. The Franklin team plays the Knights of Columbus here tonight. The score:

Winchester—Lively, f. 0; Buckley, f. 1; Fletcher, c. 2; Haggard, g. 8; Peak, g. 3. Totals, 14.
Franklin—W. Teaney, f. 14; W. Seymour, f. 8; Burnett, f. 6; Stewart, c. 0; H. Sublett, g. 0; H. Teaney, g. 6. Totals, 34.

SUNDAY SCHOOL BASKETBALL LEAGUE

Meeting Held a Y Tuesday Evening—Plans to Have Senior and Junior Divisions—No Games Until Next Week.

Representatives of the various Sunday schools of the city met at the Y. M. C. A. Tuesday evening to perfect further plans for the Sunday school basketball league.

Six churches were represented and one of the important matters discussed was the age limit of the players. It was the consensus of opinion that the best results could be obtained by the organization of a senior and junior division.

The players in the senior division would range in age from 14 to 18 years. It is thought that with this division there could be assembled four teams in the senior division and seven or eight in the junior division.

It was decided that the first games of the schedule will be between Grace and State Street churches. It was voted to defer all games until next week.

A meeting to determine the senior league will be held at 6:45 o'clock Monday evening at the Y. At this time the schedule will be discussed.

Registration blanks may be procured at the Y. M. C. A. this afternoon.

BUYERS OF TICKETS CAN GET MONEY BACK.

All persons who purchased tickets for the Baldwin-Hanlon fight in Beardstown Tuesday evening and did not use them can get their money returned by taking the tickets to the place they were purchased. The tickets were on sale at C. M. Sharpe's and the Pacific hotel. All holders of tickets are asked to attend to this matter as soon as possible.

J. F. Kellogg of East State street, this city, has returned after attending the funeral of his father in St. Louis, Mo.

URGES PEOPLE TO FIGHT CATARRH WITH SIMPLE HOME MADE REMEDY

Can Make Pint at Home and Costs Little, Says Leading Druggist of Covington, Ky., Who Has Made Special Study of Catarrh.

Says: Inflamed Nostrils Invite Influenza

People who say that catarrh is a disease not to be taken seriously are harshly rebuked by a Kentucky druggist who has for years been much interested in the growth of this loathsome, yet altogether too common disease.

He claims that the sore, tender, inflamed membrane of the nostrils and throat is a prolific breeding ground for germs—not only the germs of influenza, but many other kinds as well.

If people would only stop experimenting for two weeks and try a simple remedy made of Mentholized Arcline mixed with enough boiled water to make a full pint, half of the catarrh in this country would be abolished. It's really no joke for people

who don't know about this simple recipe to be constantly sniffing and snuffing, blowing and hawking, when all these obnoxious symptoms as well as the foul discharge can be made to disappear in a few days.

Ask for three-quarters of an ounce of Mentholized Arcline—that's all you need and after you have mixed it with enough boiled water to make a pint, gargle the throat twice daily and snuff or spray some up the nostrils, as directed.

The tender nostrils will soon lose their soreness, heal up, and be clean and healthy.

Important Reminder: Just as soon as anyone in the family gets a cold in the head, check it at once with this same medicine.

WHITE HALL TO HAVE NEW HIGH SCHOOL

Citizens Authorize Issuance of Bonds for New Community High School Building—Winter Wheat in Good Condition—Other News.

White Hall, Feb. 2.—At a special election Saturday, bonds in the amount of \$150,000 were voted for the purpose of erecting a community high school, the

CASTORIA

For Infants and Children IN USE FOR OVER 30 YEARS

Stop this!

At first signs of a cold or grip take ANE'S GOLD TABLETS

vote being 351 for to 281 against, a little better than three to one. Early figures put out from election headquarters showed a majority of four to one, but it was found that one sheet had been counted twice.

Strong opposition had developed during two weeks before the election through Carrollton influence, and was centered to the south and west of White Hall, while there was objection east of town to the bond issue solely from the standpoint that some of the voters out there took the view that the school should be built by direct taxation in order to save the bond interest, but the delay in getting into the new quarters in waiting for taxes to accumulate in this way would cause extra expense in keeping the schools in operation under the present condition that would make up a large portion of the bond interest account.

The site approved is the Pine Grove Stock Farm on South Main street, within the city limits, owned by Dr. J. S. Billings, on which the board of education holds an option at \$400 per acre for the 49 acres. It is along the main highway through the county and in view of both railroads. It lies about the center of the community high school district in a most commanding location.

The site cost \$20,000, leaving the sum of \$130,000 for building purposes, which looks to be a rather meagre sum when it is noted that Jacksonville has just appropriated \$375,000 for a high school on the site of the one that burned a few years ago, and this amount is said to be insufficient. The district supporting the new high school at White Hall comprises 41,933 acres of land, embracing a total property value of \$3,104,512, of which \$1,823,158 is outside the city limits. This is to be a practical school, the whole object being to fit the pupils for practical affairs. Agriculture with soil science and animal and plant breeding will be taught by actual experimental work and demonstration on the land. Domestic science and manual training will be thoroughly covered, and there will be a commercial and business course.

Winter Wheat Believed to be in Good Condition. The condition of winter wheat is shown to be generally good from a series of inquiries of wheat growers of this section, including large and small growers. The exception to this is in the case of early planted wheat that became infested with fly. George Berline, one of the big wheat growers of this section, says wheat is in good condition. No perceptible damage has been noted as the result of the covering for four days of the ice covering, following the morning of the 23rd that rendered the use of sidewalks a practical impossibility, pedestrians using the roadways as the ice in them became broken up by traffic. No serious injuries have been reported as the result of falls on the ice.

The monthly weather report for January shows that the temperature averaged slightly lower than normal. The summary is as follows: Mean, maximum, 33.2 degrees; mean minimum, 15.9; mean, 24.5, which is 3.2 degrees below normal. The highest was 52 on the 30th, and the lowest zero on the 3rd. The total precipitation was 0.44 inch. 2.27 inches below normal. The greatest in 24 hours was .22 inch on the 6th. The total snowfall was 4 inches, which occurred on the 8th and 9th, and there was 0.2 inches of snow on the ground on the 15th, but none at the close of the month. There were four days with 0.01 inch or more precipitation, seventeen clear, four partly cloudy and ten cloudy days.

White Hall defeated the Jacksonville Routh College basketball team here Saturday night by the score of 39 to 24.

Mrs. J. B. Abbott will go to Jacksonville Tuesday to undergo medical treatment.

FIRST WEEK, 5 EGGS; SECOND, 72; THIRD, 104

Hens Showed Steady Egg Gain for Mrs. Pierce in Winter Weather.

"The week before we tried Don Sung, we got 5 eggs from 50 hens. The next week, from a 50-cent package of Don Sung, we got 72 eggs, and the next week 104. Some of our hens are mere pullets and Don Sung has started them laying." Mrs. B. F. Pierce, R. E. D. 1, Butler, Tenn.

Mrs. Pierce selected a severe time for her test—the middle of January. Yet she started getting the egg promptly. Your hens can lay well, it cold weather, and we'll prove it here's our offer:

Give your hens Don Sung and water, results for one month. If you don't find that it pays for itself and pays you a good profit besides, simply tell us and your money will be promptly refunded.

Don Sung (Chinese for egg-laying) works directly on the egg-laying organs, and is also a splendid tonic. It is easily given in the feed, improves the hen's health, makes her stronger and more active in any weather, and starts her laying.

Try Don Sung for 30 days and if it doesn't get you the eggs, no matter how cold or wet the weather, your money will be refunded by return mail. Get Don Sung from your druggist or poultry remedy dealer or send 50 cents for a package by mail prepaid. Burrell-Dugger Co., 284 Columbia Bldg., Indianapolis, Ind.

Famous Old Recipe for Cough Syrup

Easily and cheaply made at home, but it beats them all for quick results.

Thousands of housewives have found that they can save two-thirds of the money usually spent for cough preparations, by using this well known old recipe for making cough syrup. It is simple and cheap, but it has no equal for prompt results. It takes right hold of a cough and gives immediate relief, usually stopping a ordinary cough in 24 hours or less.

Get 2½ ounces of Pinex from a druggist, pour it into a pint bottle and add plain granulated sugar syrup to make a full pint. If you prefer use clarified molasses, honey, or corn syrup, instead of sugar syrup. Either way, it tastes good, keeps perfectly and lasts a family a long time.

It's truly astonishing how quickly it acts, penetrating through every air passage of the throat and lungs, loosens and raises the phlegm, soothes and heals the membranes, and gradually but surely the annoying "throat tickle" and dreaded cough disappear entirely. Nothing better for bronchitis, spasmodic croup, hoarseness or bronchial asthma.

Pinex is a special and highly concentrated compound of genuine Norway pine extract known the world over for its healing effect on membranes.

Avoid disappointment by asking your druggist for "2½ ounces of Pinex" with full directions and don't accept anything else. Guaranteed to give absolute satisfaction or money promptly refunded. The Pinex Co., Ft. Wayne, Ind.

OUR REPAIR DEPARTMENT IS GROWING

This is due to two causes. First, the cost of new furniture is much greater. Second, we are doing this class of work at prices that you can really afford. It is really a paying investment.

A set of six dining chairs can be refinished and put in first class order at as cost of as low as \$4.00. A new seat can be upholstered in a rocker for \$1.50. A well worn rocker can be refinished for as little as \$1.25. A dresser can be refinished for a small sum, say \$4.00.

These prices are only to indicate the small cost of putting pieces in good order. We are always glad to buy used furniture, but our chance of selling at a profit depends on our ability to make the goods look usable and attractive.

This advertisement is to impress upon you that you can have good looking furniture without buying new at a cost that is insignificant compared with the result you obtain. And further, this is the time of the year to have this work done right and at the lowest price. Don't wait until spring when everyone is busy.

We have the usual stock of bargains. Space does not permit our usual list this week.

"Give Me a Quart of Oil"

A Careless Request That Invites Costly Penalties

You drive up to a garage. The garage man comes out. "Give me a quart of oil," you say. The "quart of oil" is poured into the reservoir. You drive on. You think you have amply protected your engine. But have you?

One of the surest ways to invite friction-drag, engine trouble and excessive gasoline consumption, is to say, "GIVE ME A QUART OF OIL."

"Give me a quart of oil" invites Power Loss.

"Give me a quart of oil" increases Gasoline Bills.

"Give me a quart of oil" invites Carbon Deposit.

"Give me a quart of oil" invites Noise.

"Give me a quart of oil" reduces Second-Hand Value.

SORE THROAT, COLDS

Quickly Relieved by Hamlin's Wizard Oil

Hamlin's Wizard Oil is a simple and effective treatment for sore throat and chest colds. Used as a gargle for sore throat, it brings quick relief. Rubbed on the chest it will often loosen up a hard, deep seated cold in one night.

How often sprains, bruises, cuts and burns occur in every family, as well as little troubles like earache, toothache, cold sores, canker sores, stiff neck, and tired aching feet. Soothing, healing Wizard Oil will always bring quick relief.

Get it from druggists for 30 cents. If not satisfied return the bottle and get your money back.

Ever constipated or have sick headache? Just try Wizard Oil. Whips, pleasant little pink pills, 30 cents. Guaranteed.—Adv.

**NEGLECTING THAT
COLD OR COUGH?**

Why, when Dr. King's New Discovery so promptly checks it

It's natural you don't want to be careless and let that old cold or cough drag on or that new attack develop seriously. Not when you can get such a proved successful remedy as Dr. King's New Discovery.

Cold, cough, gripe, croup does not resist this standard reliever very long. Its quality is as high today as it always has been—and it's been growing steadily in popularity for more than fifty years. 60c. and \$1.20 a bottle at all druggists. Give it a trial.

Tardy Bowels, Inert Liver

They just won't let you put "pep" into your work or play. Sick headache comes from retaining waste matter and impurities in the body.

Feel right for anything—make the liver lively, the bowels function regularly, with Dr. King's New Life Pills. Smoothly yet positively they produce results that cleanse the system and make the liver and bowels respond to the demands of a strong, healthy body. Still 25c.—at all druggists. Try them tonight.

We Sell the International Line

Every farmer in this part of the country knows the following "Trade Names": McCormick & Deering on the harvester line. P. & O. on the plow and tillage implements. These most satisfactory lines being merged into one line or under one name. "The International," means improved service and a maintenance of and betterment in all that helps the farmer. This line is the most complete under any one organization and we assure our many friends that we know it is to their interest to come in and see for themselves just what a saving we can make for them by trading with us.

Physician Explains Who Should Take
Nuxated Iron

Practical Advice on How to Help Build Up
Great Strength, Energy and Endurance.

Commenting on the use of Nuxated Iron as a tonic, strength and blood builder by over three million people annually, Dr. James Francis Sullivan, formerly physician of Bellevue Hospital (Out-door Dept.), New York, said:

man and woman who wants to possess perfect health, great physical endurance and a strong, keen mentality. Dr. Sullivan tells how to increase the iron in our blood and thereby gain greater physical and mental power, brighter intellects and better health.

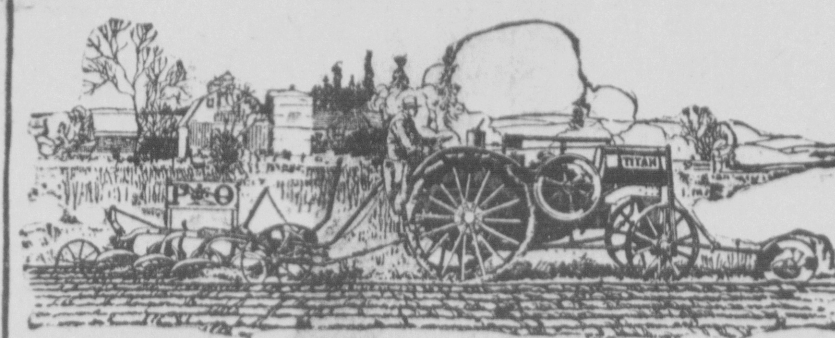

But in my opinion you can't make strong, vigorous, successful, sturdy iron, man, and healthy, rosy-checked women by feeding them on metallic iron. The old forms of metallic iron must go through a digestive process to transform them into organic iron—Nuxated Iron—before they are ready to be taken up and assimilated by the human system. Notwithstanding all that has been said and written on this subject by well-known physicians, thousands of people still insist on dosing themselves with metallic iron, simply, I suppose, because it costs a few cents less. I strongly advise readers in all cases to get a physician's prescription for organic iron—Nuxated Iron—or if you don't want to go to this trouble then purchase Nuxated Iron in its original packages and see that this particular name (Nuxated Iron) appears on the package. If you have taken preparations such as Nux and Iron and other similar iron products and failed to get results, remember that such products are an entirely different thing from Nuxated Iron.

It may also transform a beautiful, sweet-tempered woman into one who is cross, nervous and irritable. I have strongly emphasized the great necessity of physicians making blood examinations of their weak, anemic, run-down patients. Thousands of persons go on year after year suffering from physical weakness and a highly nervous condition due to lack of sufficient iron in their red blood corpuscles without ever realizing the real and true cause of their trouble. Without iron in your blood your food merely passes through the body something like corn through an old mill with rollers so wide apart that the mill can't grind.

For want of iron you may be an old man at thirty, dull of intellect, poor in memory, nervous, irritable and all "run down," while at 50 or 60 with plenty of iron in your blood you may still be young in feeling, full of life, your whole being brimming over with vim and energy.

The accompanying article of Dr. Sullivan should be carefully read by every person who is dissatisfied with the results obtained by all good druggists.

Powerful and Economical

It Is Also Unusually Quiet

Its nation-wide performance in the hands of owners has now established beyond question the unusual power of the NASH SIX with perfected valve-in-head motor.

It is pleasing in appearance, comfortable, quiet and economical of fuel. It has more than fulfilled the expectations of those familiar with the high manufacturing ability of the Nash organization.

Nash demand is far greater than the factory output. Better place your order now so that you may be safe in having yours when spring is here.

Carrying a Ton a Mile for less than a Cent

Freight rates have played a very small part in the rising cost of living.

Other causes—the waste of war, under-production, credit inflation—have added dollars to the cost of the necessities of life, while freight charges have added only cents.

The average charge for hauling a ton of freight a mile is less than a cent.

A suit of clothing that sold for \$30 before the war was carried 2,265 miles by rail from Chicago to Los Angeles for 16½ cents.

Now the freight charge is 22 cents and the suit sells for \$50.

The cost of the suit has increased 20 dollars.

Other transportation charges enter into the cost of the finished article—carrying the wool to the mills and the cloth to the tailors—but these other charges amount to but a few cents more.

The \$10 pair of shoes that used to sell for \$5 goes from the New England factory to the Florida dealer for a freight charge of 53 cents—only one cent more than the pre-war rate.

Beef pays only two-thirds of a cent a pound freight from Chicago to New York.

American freight rates are the lowest in the world.

SIX MONTHS I COULDN'T WORK

Lydia E. Pinkham's Vegetable Compound Made Me Strong and Able to Work—I Recommend It To All My Friends.

Layonne, N. J.—"I had pains in back and legs so that I could not stand caused by female trouble. I felt so all the time, had bad headaches, and for six months I couldn't work. I was treated by a physician and took other remedies but got no relief. A friend told me about Lydia E. Pinkham's Vegetable Compound and it has helped me very much. I am well and strong and now able to do my work. I can not thank you enough and I recommend your medicine to my friends who are sick."—Mrs. SUSIE SACATANSKY, 25 East 17th St., Bayonne, N. J.
It must be admitted by every fair-minded, intelligent person, that a medicine could not live and grow in popularity for over forty years, and today hold a record for such wonderful success as does Lydia E. Pinkham's Vegetable Compound, without possessing great virtue and actual worth. Such medicines must be looked upon and termed both standard and dependable by every thinking person.

During the hours an oyster supper was enjoyed.

NAMING THE DAM.

Mr. Editor:

One of our famous funny fellows once remarked "Dot vich we calls a skunk by any oder name schneells schoost der same." Now after three quarters of a century of fuss and feathers over our water supply we seem to have reached a permanent solution of the vexatious problem. After trying cisterns, typhoid fever breeding wells, frog pond lakes, artesian wells, pipe lines to the river, subterranean lakes and the Lord only knows what other useless makeshifts we have learned wisdom, and built a dam—something we should have done three-quarters of a century ago.

Now another problem has arisen. It threatens to be more baffling than that of the water supply itself. Why not call a dam a spade? There are precedents galore for calling places dams. For instance: Beaver Dam, Amsterdam, Rotterdam, Roosevelt Dam, and I believe there is a little town out in California called Yuba Dam. In view of the vast amount of discussion our water supply question has occasioned during the last seventy years "Yuba Dam Lake" wouldn't be a very inappropriate name for the impending reservoir.

Yours truly,
D. W. George.

Indigestion, Acidity, Sourness and Gases ended with "Pape's Diapepsin"

Millions of people know that it is needless to be bothered with indigestion, dyspepsia or a disordered stomach. A few tablets of Pape's Diapepsin neutralize acidity and give relief at once.

When your meals don't fit and you feel uncomfortable, when you belch gases, acids or raise sour, undigested food. When you feel lumps of indigestion pain, heartburn or headache, from acidity. Just eat a tablet of Pape's Diapepsin and the stomach distress is gone.

The cost is so little. The benefits so great. You, too, will be a Diapepsin enthusiast afterwards.—Adv.
